PROFESSIONAL SUMMARY

Computer and Information Sciences student with hands-on experience building full-stack, bilingual web applications as part of collaborative team projects — from responsive front-ends to relational database design. Comfortable across the stack with HTML/CSS/JavaScript, Java (OOP), and SQL, and passionate about crafting clean, user-friendly interfaces backed by well-structured systems.

FEATURED PROJECTS

WorkerHub — Full-Stack, Team Lead

📅 2026

- Full-stack platform connecting clients with skilled workers across Egypt, with bilingual (Arabic/English) support.
- Built role-based dashboards for workers and clients with real-time service booking and a rating system.

HTML/CSS JavaScript UI/UX Bilingual

Smarthifz — Full-Stack, Team Lead

📅 2026

- Intelligent Quran memorization platform combining progress tracking, gamification, and an integrated AI assistant.
- Features streaks, achievement badges, personalized statistics, and smart spaced-repetition review scheduling.

HTML/CSS JavaScript UI/UX Bilingual

Hotel HMS — Full-Stack, Team Lead

📅 2025

- Full-featured hotel management platform with a centralized dashboard for admins and customers.
- Supports room booking, reservations, invoices, suppliers, and services management.

HTML/CSS JavaScript UI/UX

Bank Management System — Database Design

📅 Oct – Dec 2025

- Comprehensive banking database system with complete ERD design and optimized SQL queries.
- Manages customer accounts, transactions, deposits/withdrawals, and role-based secure data access.

SQL ERD Java Database Design

Certificates

CERTIFICATIONS

Software Engineering Track — Front-End (React) — Digital Egypt Pioneers (Rowad Al-Masria Al-Raqmeya)

📅 2026

Generative AI Course — Orange Digital Center · Grade 98%

📅 Jun 2026

SQL Mastery — Intro & Intermediate — DataCamp

📅 Dec 2025

Academic Excellence Award — AASTMT, College of Computing & IT

📅 2024–2025

EDUCATION

B.Sc. Computer & Information Sciences

Arab Academy for Science, Technology & Maritime Transport

📅 Graduated: Oct 2028

COURSES

Software Engineering – Front-End (React) – (Digital Egypt Pioneers (Rowad Al-Masria Al-Raqmeya))

Generative AI Course – (Orange Digital Center (Grade 98%))

SQL Mastery – Intro & Intermediate – (DataCamp)

Network Engineering Essentials – (Self-Study)

TECHNICAL SKILLS

Frontend:	HTML, CSS, JavaScript, Responsive UI/UX
Programming:	Java (OOP), Sockets, C++, C, Python
Databases:	SQL — Joins, Aggregates, Subqueries, CTEs, Schema Design
Networking:	TCP/IP, Subnetting, Protocol Analysis
Mathematics:	Linear Algebra, Probability & Statistics
Tools:	Git, GitHub, VS Code, Figma

LANGUAGES

- 🌐 Arabic — Native
- 🌐 English — Professional Working Proficiency
